NOTE - The music slows down the last time A is danced. You need to adapt and interpret the choreography with the music.

Instead of syncopating the second 'rock recover' in the second set of 8 (counts 9 - 16) dance it on single counts.

Then on the '& cross unwind 3/4 turn' hold on to the counts making sure you're ready to walk forward when the guitar comes back in.

And dance through to the end.

End of Dance – Happy Dancing
